Let us Treat Your Clients as Well as You Do!

Your guests/customers will thoroughly enjoy their experience at our historic golf course designed by legendary architect Donald Ross. We provide an unforgettable golf experience and the highest standard of service, leaving your guests with the special feeling like members for the day.

The BENEFITS — You and your guests will receive 18 holes of golf, power carts, free range balls, lockers, discounts on merchandise in the pro shop and preferential tee times. You will also receive the privileges and convenience of monthly billing for purchases in the golf shop and all food & beverages. And when your *Corporate Membership* package rounds are used up, you may renew it as often as you wish!

RESTRICTIONS — These *Corporate Membership* packages are restricted memberships designed as a means for you to entertain guests at a reduced fee, while receiving the highest degree of service similar to that of a full member. In order to receive these benefits, you are required to bring one or more guests with you on each visit. You will not be permitted to participate in "members only" events and may not play without charge when not accompanied by a guest.
